Destitution in North Carolina

NEW YORK, July 1.—We have deplorable accounts of destitution in Wake County, N. C. At least 300 families are nearly destitute; some had no meat for weeks; no bread for days, no flour for months nor sugar nor coffee for years.

Fire—Seven-Thirties—Colored Policemen.

CHICAGO, July 1.—A fire at Toledo, Ohio, to-day, burned three stores on Summit street. Loss, $28,000.
WASHINGTON, July 1.—Only seven-thirties dated August 15th, 1864, will be received for conversion. The June and July issues are not yet convertible.
MOBILE, July 1.—Five freedmen have been appointed on the police

Fourth of July at the South.

A special says the President has issued orders respecting removal of the Louisiana Levee Commissioners.
The Department Commanders in the South are directed to give orders to appropriate moneys for the observance of the Fourth of July.

Canadian Confederation Celebration.

CHICAGO, July 1.—The inauguration of the confederation was celebrated to-day throughout Canada, by general holiday, military reviews, public meetings, banquets, illuminations, fireworks, etc.

Frauds at New Orleans—Indictments.

NEW ORLEANS, July 2.—A fraudulent issue of city scrip has been discovered. The amount is unknown. No arrestation has been taken by council, and city notes are steadily becoming uncurrent. The Grand Jury of the District Court found bills of indictment against Thomas P. May, President of the first National Bank for embezzlement of $160,000, while the sub-Treasurer and others are indicted for embezzling $100,000 deposited in the bank as Government property. They also found bills against Whitaker for the embezzlement of $145,000 in Government funds. Six cases of yellow fever are reported.

Impeachment.

CHICAGO, July 2.—The Times' special says: There is proper authority for the statement that a report in favor of impeaching the President is being prepared by four members of the committee, Bontwell, Lawrence, Wilkinson and Thomas. Mr. Wilson, the chairman, will probably report a resolution requiring the President. The Democrats have not indicated their course of action. Probably no majority report will favor any conclusion.

Maximilian.

It has officially transpired that the French Minister informed Mr Seward that Maximilian proposed to abdicate provided a constitutional assembly should be convened and a free vote of President was taken, but Seward declined to approve the proposition on the ground that it would be an unwarranted interference with Mexican affairs The request of the Emperor Napoleon and Queen Victoria to our Government to give aid to save Maximilian did not reach Mexico in time.

Reconstruction.

The New York *Tribune's* special says: Indications point to a substantial accord of various opinions and the probable passage of a bill remedying the defects in the reconstruction act and placing beyond a question the power of military commanders to remove civil officers. It is believed the bill can be agreed upon by a satisfactory majority of Congress, but yet will not be opposed by the President It is not the purpose of members favoring impeachment to push matters at the July session, but to ask for a special session in October
The *Herald's* Boston special says Senator Wilson is said to favor General Grant for the next President, and believes that if the Southern States give half their votes for the Republican party, they will win the next election. He also believes that the July session will do nothing beyond passing an unobjectionary reconstruction act
The *Herald's* Washington special says that Sheridan's letter has not yet reached the President, and he is said to have violated the army regulations by publishing his letter, and is liable to rebuke.

Greeley before the Judiciary Committee.

The Chicago *Times* special says that Greeley, in his testimony before the Judiciary Committee, said he had no communication with any member of the Government in relation to the trial or release of Jefferson Davis, except with Speed, which was in the spring of 1866 He had no communication whatever with the President on the subject. When he went to Richmond he had no knowledge of what the Government would do

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, July 6.—The *Bulletin* of this evening says the movement for a convention at Sacramento to be held on the 16th, for the purpose of submitting three or four suitable names for those of the offensive candidates on the Union State ticket, is the subject of very general discussion. It is regarded as a legitimate effort within the organization to strengthen the party, and the only means that now remains for removing the incubus that depresses the Union cause in this State
Yesterday afternoon, about 6½ o'clock, the steamship *Idaho*, on leaving her dock, came into collision with the steamer *Contra Costa*, off Folsom street wharf The latter had been to the Pacific Mail dock, to lower some cattle and had got abreast of Folsom street when she saw the *Idaho* coming out The *Contra Costa* blew her whistle when about one hundred yards off, and stopped her engines, hoping the *Idaho* would avoid her The latter, however, kept on her course, and struck the *Contra Costa* just forward of her wheel shaft The damage was confined to a complete demolition of the port wheel and guard The *Contra Costa* has experienced damages to the amount of from $1,500 to $2,000. Pending her wheel disabled the *Contra Costa* dropped astern and swung round upon the steamship *John L. Stephens*, by which she carried away her after rail.
On the evening of the 4th a serious cutting affray occurred on the United Place, in which Andrew Barrett, a gardener, cut and stabbed Frank Bartini Baker, inflicting wounds one of which is likely to prove fatal
G C. Gorham, Union nominee for Governor, having resigned the clerkship of the U S. Courts, Judge Field has appointed Geo. K. Whitney, of the law firm of Brooks & Whitney to the position The resignation takes effect on the 1st of September next Mr Whitney acts as Deputy Clerk.
A terrible accident occurred at Fort Point on the 4th, in the immediate firing of John Patterson and Michael Conlon, of Battery B, 2d Regiment of Artillery. A salute was fired with one of the heavy guns, and after the explosion the dead bodies of the men were found about twenty feet from the mouth of the cannon. The verdict of the Coroner's jury relates the following facts The deceased had both been absent from their duty at the Fort as soldiers for four days, and on their return on the morning of the 4th, they were placed under arrest and confined within the walls of the Fort, they did not pass the sentinel at the gate, and after the salute was fired their dead bodies were found, terribly mutilated, some twenty feet from the mouth of the lower tier of guns, which had been discharged. The supposition is that they crawled through the embrasure expecting to escape, and were thus calling themselves before the cannon, which fired, and that their death was accidental.
The Democrats announce a mass meeting at the Union Hall on Tuesday evening next, when Mr Haight, their nominee for Governor, Edward Stanley, Eugene Casserly, and other leading Democrats, will speak. The meeting is to be held for the purpose of ratifying the State ticket

MONDAY MORNING, JULY [illegible], 1867

Really too kind an Offer.

We have lately received the following epistle from strangers, though evidently exceedingly kind hearted gentlemen

New York, [illegible]

Dear Sir: As we are determined to send a good prize in your neighborhood and with this resolution, we have been looking around for an opening in which, by presenting some discreet and reliable person with a prize of a few hundred dollars it would have the desired effect to increase the number of our customers. We accidentally met with your address and the idea occurred to us that you were just the person to aid us in our enterprise. We therefore make to you a proposition that must strike you as being no less novel than it is liberal, and that you may not suppose that there is any deception in it we inform you that the prize money does not come out of our pocket but out of the pocket of the *lottery managers* and we shall not lose by sending a few hundred dollars in prize money but shall gain by it in the increased amount of business we shall attract from your neighborhood when you show the gold and make it generally known that it is the process do of a prize drawn at our office. We make this offer to you in strict confidence—the proposal is plain. We are to send a certificate for a chance to draw a prize of a few hundred dollars, *you are to show the money*, the result will be that hundreds of dollars will be sent to us for tickets—you may be the gainer of a few hundred dollars—we shall be gainers by our sales, and the parties who send for tickets may be gainers by drawing prizes. Every one that sends will of course expect to draw a prize not knowing the offer we made privately to you *securely sealed* a certificate of package of tickets to the enclosed scheme, and to set at rest any doubt you may have of our sincerity, we hereby bind ourselves to send to you a second certificate in any of our brilliant extra lotteries, *for nothing*, if the first we send you does not draw you *clear of all Expenses*, eleven hundred dollars in gold, and mark the fact, to send you eleven hundred dollars in gold out of the managers' pocket, will cost us nothing, but to send you an *extra certificate* will take money out of our pocket. We mention this merely to show you that it is *our interest* to send you a prize. We hand you an envelope with our address. Enclose to us $20 in gold, or a draft payable in gold to pay for the tickets, and we will forward them to you immediately. As we remit prize money by draft payable in gold, you will give us the name of your nearest bank, so that there may be no delay in forwarding you a draft as soon as the drawing is over for the amount you draw. Please consider this letter *strictly private* and confidential, and send your order without delay, as we shall have to order the certificate from the managers you must send us $20 in gold or a draft payable to us in gold. Send your order by *express* to Yours sincerely, J. E. BRENNAN & CO

Now we take it that the above liberal offer, from total strangers, is about the kindest thing we ever experienced. As the writers suggest, it does strike us as "no less novel than liberal," that a rich, benovolent firm residing in that great selfish city, New York, should have selected this manner of disposing of their "more money than they knows what to do with." J. E. Brennan & Co. must be regular bricks, and no mistake. The Obearable Brothers who went about conferring favors upon everybody and adopting everybody as their wards and legates, shrink into liliputian proportions beside Brennan and his associates. Just think of it! Eleven hundred dollars, clear of all expenses, and all that is required of us is to send $20, in gold, and when we get the prize, we are to "show the money!" Of course we will show it! We trust that J. E. Brennan & Co. did not doubt for a moment that we would "show the money." How considerate of them, too, to ask for the address of our *nearest* bank, so as to put us to the least possible delay and trouble in getting their draft cashed. But we dont care the snap of our smallest finger which bank they send a draft on; the fattest one is only a couple of blocks away; the distance is really no consideration; we assure Brennan & Co. that the eleven hundred dollars would not be permitted to rot in damp and musty vaults on account of the difference between our nearest bank and "any other man." The unprecedented generosity of Mr. Brennan and the other fellows, awakes within us a corresponding desire to do the handsome thing. We make an offer, also, the business like fairness of which, we trust, B. & Co. will appreciate. To simplify the transaction, we propose that they just make out their check in our favor for ten hundred and eighty dollars, payable in gold. That will save the trouble and risk of sending the twenty dollars, dont you see? Is it a whack? You see, Mr. Brennan and the rest of you, we dont know exactly what might become of our twenty dollars; those "Expressos" are so uncertain, nowadays. We hope that upon receipt of this offer, you will be more than ever confirmed in the opinion which you were good enough to express of us in the beginning of your letter, that we are "discreet." The draft for ten hundred and eighty dollars may be sent by express. To set at rest any doubts you may have of our sincerity, we hereby bind ourself, upon the receipt of the ten hundred and eighty bonds (if not bogus) to present you a receipt in full by return mail.

The Party Without a Policy.

Democratic editors have a hard time in their efforts to define to such of their followers as can read, exactly what is the Democratic and what the Radical party faith and policy. The difficulty is that the Democratic teachers do not seem to clearly understand the lesson themselves. The blind lead the blind, and so they go stumbling over obstacles, falling into ditches, doubling on their own tracks and swinging round all sorts of circles. There is something pitiable as well as contemptible in the condition of the Democratic party—pitiable in that it has no settled policy except blind opposition to whatever it may for the moment conceive to be Radical policy; and contemptible in that it has no apparent desire to be anything better than it is. One of the most contemptible practices of its editors and orators, is to pick up the utterances of every crazy-headed mouther of words, make them stand as the declared principles of the Union party and then to warn their readers and hearers of the dangerous tendencies of Radicalism. Consistency and truth are very little regarded in any such guerrilla raids. Exact truth would not be serviceable and consistency is not necessary, for the reason that opposition merely is the only policy these operators have, and to create prejudices and hates is their only purpose. It answers one of their objects, for instance, to arraign the Radicals for being in favor of negro suffrage. If some irresponsible individual says he is in favor of giving the negroes the ballot without restrictions or conditions, this is cited as illustrative of the dangerous designs of the Radicals. If another says he is opposed to negro suffrage, this also is cited as equally illustrative of Radicalism. One man says he would not only refuse the ballot to the negro, but would take it from certain white people, whereupon the Union *party* is charged with an attempt to make the negro the social equal of the whites. Another opposes such things on grounds of social policy, this, too, is held up as Radicalism, Radical injustice to the negro who is a free man and a citizen. Of course, to put themselves on opposite grounds to all these positions of individuals, and over their shoulders to strike blows at the Radical party, Democratic editors are forced to change their bases very frequently, at a heavy expense to consistency and truth. The consequence is that the Democratic party, if it editors represent it, has no policy except captious opposition to whatever they may look upon as belonging to the Radicals. Their support of the President is not prompted so much by love of him or approval of his acts, *per se*, as by the fact that Radicals disapprove them. Their opposition to Congress goes to *whatever* Congress does, instead of what it may do *wrong*. They are just as ready to swear opposition to what Congress may do next year as to that which has already been done. This is rather a flimsy platform for a political party to stand on, but it is the best the Democracy can at present get. Democratic editors are suffering a good deal of wear and tear in trying to define its limits so that Democratic followers may not get off it or fall through it.

Going.—The Vancouver *Register* says that Gen. Steele is going down to San Francisco on the 1st for the purpose of giving testimony before the Court of Inquiry now in session at that place.

STATE ITEMS.

Five soldiers of the war of 1812—P. Geer Sr., Jas. Davidson, John Taylor Hugh H. Hopson and Jesse Ward—marched in the procession on the Fourth at Salem. Daniel Strang also in the procession was a roll list of the Blackhawk war.

The man Minser, who was lately discharged after a trial for burning Durbin's stable, we learn from Mr. Joseph Cox driver of the Silverton stage, was last night arrested at Silverton where he had robbed a man named Johnson of $47. He was pursued and the money found on him when taken. So says the *Record*.

On Wednesday last, says the Albany *Democrat* Noah Shanks Esq. living in Bush creek precinct met with a serious accident. He was at work in a saw mill and a shaft revolving at the other end one hand and arm were actually split in two up to the elbow. He is a worker in industry and good citizen and has the sympathy of the entire community in which he resides.

A correspondent at Needy, Clackamas county, writes July 5th. We had a grand time in the 4th at the new camp ground near this place. 2,000 persons were on the ground. The Hon. W. C. Johnson entertained the crowd for near an hour spell-bound with his eloquence in a very patriotic oration after which the crowd were marched round to the table where all partook of a pic nic dinner. Then the Sabbath School assembled at the stand and were addressed by Prof Powell, of Salem, Rev. J. W. Cooper and a few remarks from the Hon. W. C. Johnson.

We learn that at Astoria on the fourth, they had a fine city and a national celebration the people generally participating under the lead of the "Tonquins." In the afternoon, Capt Strang, with the steamer *Couch*, took everybody to Fort Stevens Capt Ewa, with the *Gypsy*, took everybody else down the bay and river on an excursion, and Capt. Seammon in his capacious boat took the balance (who where much the most numerous) off to the Ruvenna Cantor, *la Lune*, where they had a fine time. The gallant captain, also, gave a sunrise and sunset gun, and a salute at noon.

"The Use of the Negro"

Senator Williams is reported, through copperhead sources, to have said in his recent speech at La Grande, something in favor of giving the negro civil and political rights. The authority quotes as follows, from the speech "Give them these, with the ballot to protect themselves, and they are reliable Union men, and will vote the Union ticket." We presume that Senator Williams did use that, or similar language, and we are inclined to think what he said is very true. Copperheads think so too, and that's what's the matter. That accounts for their extreme disgust at the idea of investing the negro with rights and ballots. That is what inspires copperhead newspaper articles in denunciation of "The use of the negro" which the Radicals propose to make. Reverse the prospect, however, and make it probable that the negro upon being invested with the ballot, would be a traitor and vote the Democratic ticket, and the disgust of Democrats would be dissipated instantly; the negro would, at once, become as sweet a savor in their nostrils as any other man; "the use of the negro" would then be about as palatable as anything a Democrat could think of.

The Eight-hour Law.—The *Nation* puts up the eight hour law humbug very succinctly and truthfully. It says, "All these laws simply prohibit men from working more than eight hours unless they wish or agree to do so, and are therefore about of as much value as an act permitting the workingmen to have a roast turkey and pumpkin pie for his dinner when he thinks he can afford it."

The *Golden Era*, "the Kentucky conservative chap" of the Pacific coast, after pandering most abjectly, for a year or two, to the copperhead element, is in danger of losing caste with that class of folks by recommending "a more general and thorough education" of the people as the best remedy for the evils which belong to our republican system of government.

Lo! the Poor Indian.—The Colorado *Times* improves Pope's "Poor Indian" thusly:

> Lo! the poor Indian, who untutored feeds
> On *Locusts, Beetles, Frogs and Centipedes!*
> His taste keen hunger never taught to nigh
> For Beef, Veal, Mutton, Pork or *Pumpkin Pie*,
> But thinks, admitted to that equal feast,
> All things are good for man as well as beast.

Petition for the Pardon of Jeff. Davis.—The following is a petition presented to the President, asking for the pardon of Jeff. Davis:

Your Excellency: Forasmuch as I have no doubt that Jefferson Davis, now a prisoner in Fortress Monroe, is willing to obey the Government he once defied, and anxious to restore the same therefore your Excellency is hereby prayed to extend executive clemency to the said Jefferson Davis a full, free and complete pardon for all his past rebellion; and your supplicant will ever pray the blessings of Almighty God upon your Excellency, our Government and our common country. All of which is respectfully submitted and prayed.

Done in the name of our Lord Jesus Christ, by Paul Bagley, Missionary from Japan, China, and elsewhere.

To His Excellency Andrew Johnson, President of the United States of America.

Dated Washington, April 30, 1867.

I concur in this petition.

GARRETT DAVIS, U. S. Senator, Kentucky.

Whereas the God of battles has decided against the Confederacy, and it is dead. We, therefore, earnestly entreat the late President thereof, to accept the situation by applying for his pardon. We also pray His Excellency Andrew Johnson, President of the United States, that of Executive clemency he may grant the same to the said Jefferson Davis.

Washington, May 3, 1867.

John T. Monroe, Mayor of New Orleans; John W. Overall, Secretary of Mayoralty, New Orleans; J. J. Jones, Baton Rouge, La.; W. L. Sharkey, of Mississippi; R. J. Walker, Duncan S. Walker, W. H. Carlin, Hugh Latham, Mayor of Alexandria, Va.; G. S. Gorghman, of Richmond, Jacob M. Ruff, Mayor of Lexington, Va.; Wm. D. Branch, Mayor of Lynchburg, Va.; Hon. Stevenson Archer, M. C., Maryland.

WASHINGTON, D. C., May 22, 1867.

My Hon. Dear Friend: I enclose documents for your signature, and return to me at the Post Office here, and have no doubt of your pardon. And you need feel under no obligation to me, for it is my duty to God and the world. In the love of our Lord Jesus Christ,

PAUL BAGLEY, Missionary.

To Jefferson Davis, late President Confederate States of America.

Steamship Matters.—Webb, the President of the North American Company, into Nicaragua Transit Company, has bought the steamship *Oregonian*, now in the harbor of San Francisco, built last season in New York for the San Francisco and Oregon trade. She cost $480,000. She will go into the Nicaragua line with the new steamship *Nevada*, now on the other side, and the Company will dispatch two steamers a month hereafter.—*Sacramento Bee*.

Revenue Agent for Russian America.—Captain Howard of the Revenue Service has been commissioned to see that the Revenue regulations now in preparation as to trade in the newly acquired Russian Territory are enforced, and he leaves for that Territory in a few days. The Government will permit nothing but mere supplies to enter the domain, but no whisky, etc., until Congress legislates on the subject.

A Splendid Instrument.—We saw, yesterday, at J. L. Parrish & Co's something new in the way of an organ—a French instrument called the Organ Harmonium—invented by Alphonse Rodolphe. It is a very considerable modification of the organ as we have them from the American manufactories. It is provided with sixteen stops, each of which exercises a distinct and peculiar effect upon the tone. The bass stops are the Forte, Jeu Doux, (soft, sweet) Basson, Clarion, Bourdon, English Horn, the treble stops are Expression, Tremolo, Scotch Bagpipe, Flute, Clarionette, Fife, Hautbois, Voix Celeste, Forte, and Jeux or Full Expression. The effect of these stops in changing the tone is most surprising. For instance from the flute to Voix Celeste with Full Expression, the tone changes from what sounds precisely like a soft flute, to the full grand harmony which we would expect from an Angel choir—what the name imports. The Key-Board is movable and can be adjusted to any key, to any instrument, or to the voice of any singer. Other changes are no less surprising. The instruments are of the most perfect workmanship and of the highest finish have taken the first medals at all the great European Expositions. The price runs from $175, to $600. Persons in want of an instrument should call and see them for it is impossible to get a correct idea of them, except from personal inspection. J. L. Parrish & Co., are sole agents for the Pacific coast.

CHOLERA.

Mr. Perry Davis.—The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to put a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentery, Toothache, etc. THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from a severe attack of the Sick Headache, by using two teaspoonful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident, through the blessing of God, it saved me from the cholera in the summer of 1854. Travelling and heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worse case in an hour, or, at the most, half a day. I have heard of many cases of dysentery being cured by its use. Put in the tooth, it will stop the toothache. Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

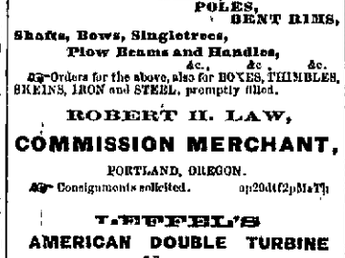
LEFFEL'S

AMERICAN DOUBLE TURBINE



THESE WHEELS, unequaled and unrivaled in the United States or the world, have been fully tested on this coast, more than forty being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

On account of the late calamity to the OREGON IRON WORKS we have lost a few Wheels, but of these sizes we have a good supply, therefore those contemplating using this Wheel need not be disappointed, but forward their order at once, accompanied with the CASH, which we now need more than the Wheels.

We cheerfully refer to all using our wheels, and are assured that *all will affirm that our wheels accomplish all and even more than we claim for them*. Address

PUBLIC MEETING.—At the request of many influential citizens of Oregon City, this call is published for a public meeting in the Court House on next Monday evening, to take such steps as may be deemed necessary to secure the erection of a building at this place, of the Oregon Iron Works, lately destroyed by fire at Portland. If the natural advantages with which this city is so bountifully supplied are to be improved by the ingenuity of man, it is highly necessary that all persons, directly interested, act together, or in concert for such purpose, and by offering inducements invite capitalists to come among us.

In the present instance we are authorized to say that the most liberal propositions will be made to the Iron Works Company, to select a site here on the grounds of the P. T. Company.

Two of that lumbering companies, (if not the third), agree to contribute to the object.

The Common Council and the County Commissioners will be petitioned for an exemption from taxes for city and county purposes, for a certain period.

We have great confidence that desirable arrangements may be effected, and urgently ask that a general attendance will result from this call. Let no excuse prevent your being there. The matter is surely in the hands of this community.

D C IRELAND.

July 8th, 1867.

We really felt a little astonished when we read the foregoing; not but what Oregon City would be an excellent point for building an iron foundry. Water as a motive power might be obtained—exemption from taxes might be effected—lumber contributed—and every possible assistance offered to induce the Directors of the Iron Works to rebuild at Oregon City, but we do not believe it would be offering small. Portland is the natural location of such works, and by nature is to ascertain by experience those facts, which wisdom, logically deduces from principles philosophically applied. Were these Works located at Oregon City, the work done by them would be for less in amount of dollars and cents than if located at Portland. It is not for us, however, to produce arguments why the foundry should be rebuilt in Portland. The gentlemen who occupy the positions of Directors, know full well what their duty and interest in the premises are, and in their judgment, of course, Portland would have the advantage. We are perfectly easy and do not believe inducements could be offered by Oregon City sufficient to warrant the company to make a removal up the Willamette.

RECORDER'S COURT.—Saturday morning this Court, composed of a disagreeable case between three persons of the weaker sex. A mother to protect her children from a threatened whipping at the hands of an unauthorized party, committed merely a technical assault, and was fined $5. It would have been better if this case had been left to the city authorities to prosecute instead of the officers of the grand, august State of Oregon taking it in hand and attempting to protect the majesty of the law from an imaginary affront. Rather let the revenue derived from such sources go into the city treasury than into that of the county. In the attempt to make State cases out of the matter brought before the City Recorder by the officers of the city, many dollars of revenue are lost to the city treasury, which if the cases were prosecuted by the city would be saved. The ordinances provide for the punishment of ordinary cases of assault, and we think that such cases when detected by city officers should be conveyed by city officers and the fines, if any, go into the city treasury.

In this court this morning will be investigated the case of a John Chinaman and Benj. L. Wesley, a young man in attendance upon the Commercial College. It seems that Mr. Wesley was passing up Alder street, while the sidewalk was crowded with our Mongolian brothers. In walking his way through these Chinese obstructions, it is supposed that Mr. W. accidently punched or pushed a moon-eyed gentlemen, who deemed it an insult and resented it accordingly. The two were arrested by officer Hudson for "disorderly conduct by fighting," and gave cash money for their appearance this morning. We understand, however, that a fine charge will be made instead of the foregoing against Mr. Wesley, for assaulting the Chinaman. To-morrow morrow morning we will, of course, publish the result of the disturbance. His Honor, will also this morning settle a difficulty which the two combatants tried to settle, but could not, as the knife of one was too small and ditto the weight used by the other. It appears that Mr. Donahue is the proprietor of the Steamboat Exchange, and that Mr. Phillips is the brother-in-law, the former having married the latter's sister. Mr. Phillips did not like the manner in which he thought Mr. Donahue treated his sister, and endeavored to take him to task about it—a general row occurred. Mr. Donahue threw a weight at Mr. Phillips and Mr. Phillips cut Mr. Donahue with the blade of a small pocket knife. Nobody seriously hurt. The end of the occurance will probably transpire this morning.

PRE-PLANT.—Mr. T. Dray favored the OREGONIAN office with what he calls an average sample of pie-plant raised in Klahomia Valley, Walkinzum county, W. T., the longest of which samples measures four feet from the point, where the plant is usually parted from the root to the tip of the largest leaf. It is as tender as pie-plant ordinarily is, when taken from the garden and prepared for the table. Mr. D. assures us that this plant is only a fair sample of the luxurious growth of all vegetables in that valley, and adds that the health in that section is remarkably good; that there is no sickness of a serious character there; that this is proved by a residence of twelve years; and is much astonished that young farmers should continue to rent land and raise crops on "shares," when there is so much valuable land ready for cultivation in the valley of Klahomia. We can assure Mr. D. that such pie-plant, for size, flavor and tenderness, we never did witness, and we have eaten and observed a tolerable large quantity.

"GUARDS" AND "FENIANS."—Tardy justice is better than no justice. In the multiplicity of our duties on Friday last we entirely omitted to prepare a notice of what those patriotic military companies did on the Fourth. The Washington Guards left their armory on Washington street and marched to the armory of the Fenian Guards, where both companies formed into line and paraded our principal streets, giving our citizens an opportunity of witnessing the military proficiency of these well drilled and fine appearing companies. The dress worn by the members of each organization was plain, but elegant—grey for the Washingtons and green for the Fenians. After marching and countermarching, and performing difficult evolutions in a creditable manner, each company sought its quarters, having performed its duties to themselves and the day. In the evening the Washington Guards had a grand ball at Ord Bino Hall, at which all the enjoyment possible was experienced by those in attendance. The Mechanics' Band furnished them most exquisite music for the occasion.

PUTTING TO THE TASTE.—Mr. Seth Lindling left with us, yesterday, a sample of cherries which seems to have existed for time out of mind, without a name. They are a delicious fruit, and were we to apply a name giving an idea of the facial likeness hid beneath the rich and luxurious covering which encases the more than pleasantly subtance within, we would have to study the descriptive words of all languages, written and unwritten, and then we think we would fail. But to answer the ordinary purposes of conversance, we accept of the invitation to christen these cherries and call them the "*Oregon*." He also left with us a sample of red currants, which, without exception, are the largest and finest looking, and best flavored we have ever met in our travels. They are certainly the *ne plus ultra* of the currant kingdom.

"A SINK HOLE."—That horrible "sink-hole" of greasy, scummy, sickly, putrid, miasmious water on the west side of Front street, between O and D streets, and just north the Globe Hotel, ought to be abated—It is the greatest nuisance in the city. That one hole, from its appearance, looks like it would require one doctor and one grave digger constantly at work, the former to cure and the latter to bury the victims of its destructive effects. Cannot the city and the owners make some arrangement by which this disgusting hole may be filled up. We think we remember of an innocent brewer who was fined for turning his refuse water into the same depression of the earth's surface. Now who will be responsible for the nuisance condition in which it is at present. We say fill it up.

FIXLEY'S.—Saturday evening we (and ours) attended the performance of these children—we say children, as the eldest is but 15, the next 11, and the youngest 8 years of age. To say we were pleased, would but faintly express our appreciation of the art and innocence displayed by these little fairies. Yesterday Mr. Fixley and family took their departure for California overland, and will perform at different points on they journey. To-night an exhibition will be given at Oregon City. We bespeak for these talented little artists a kind reception, full houses, and natural encouragement wherever they may stop to entertain our Oregon people.

RHETORICAL READING.—F. D. Winton, Professor of Elocution, will give a rare treat in the way of readings from some of our most admired poets and writers, which to admire it will only be necessary to hear Prof Winton, who comes well recommended for talent in the peculiarly difficult branch of art which he has made his study. The readings are to take place at the Methodist Church this (Monday) evening at eight o'clock. Admission only fifty cents. The friends of education, and those admiring elocution as an art, are particularly called upon to encourage the Professor in his laudable efforts.

U. S. REVENUE.—The ten days allowed by law for the payment of the special tax on professions, trades, arts, &c., expires on Wednesday, after which costs will be made. Mr. Buckenstan informs us that on Saturday he personally took in over the counter at the Revenue office, in small stamps, $12,000. Though we never handled any great amount of money, still we think that amount to be received in infinite quantities by Mr B and counted, in one day, is quite a feat.

FAMILY GROCERIES.—Messrs. Herman & Murphy, family grocers and dealers in produce, No 1 North Front street, advertise in this morning's OREGONIAN. On Saturday last we stepped into their establishment, and from the first sight obtained were satisfied that an assortment could always be found, and that as dealers, they could be relied on. We would call the attention of families in that end of the city to this establishment.

CIRCUIT COURT.—Judge Shattuck to day commences formally the business of this Court. The jurors who were drawn for the term, were discharged to report at the Courthouse to-day. The Attorneys are prepared and preparing for the dispatch of business, and his Honor's wonted limb is doing so very well as not to inconvenience him in the discharge of his duties nor ruffle his usually equable temper.

COUNTY COURT.—On Saturday the following business was transacted by the County Commissioners. In the matter of the estate of Thomas J Holmes, deceased, Justin W. Strowbridge and Thomas J Holmes, Jr were appointed administrators. Geo H Flanders, W S Ladd, and W. S Caldwell were appointed appraisers of the estate of deceased.

SORRY.—The wife of D C Ireland, Esq., of the *Enterprise*, at Oregon City, has been seriously indisposed since he removed her to his residence from Portland, but at present is likely to recover.

THE COACH.—We are requested to state that the *Coach* hereafter will make her landings and depart from the wharf of the Oregon Steam Navigation Company, until the high waters recede.

ITEMS.—We clip from the Oregon City *Enterprise* the following items of news, etc. *Closed*.—On Wednesday last the Woolen Manufacturing Company at this place shut down all machinery for an indefinite period. The Paper Mill was closed on attachment the same day. We have no time for comments this week.—*Burning Building*.—Gleason & Bro.'s Mills, on French Prairie, burned last week, are being rebuilt. The fire was undoubtedly the work of an incendiary. A saw mill, planing mill, block mill shop, and 10 or 1500 feet of choice lumber was destroyed.—*The Trophy*.—The banner of the match game of base ball in this city on last Thursday, was presented by Mrs E D Bedows of Cornwall, with a very choice bouquet. A duplicate of the handsome gift was left in our possession by the same generous lady.—*Correct*.—The plan for the street mains of the Oregon City Water Works Company were ordered to come along as speedily as possible. The preparatory work for erecting the reservoir, on the bluff is progressing fully. Main street will have ten hydrants. Won't that be healthy for a warm day.—*The Games*.—Four games of Base Ball were played in this city on Thursday last. Those between the Pioneers and Clackamas Club netting 69 runs. Next the Wide Awake Club of Portland played the Second Nine of the Clackamas Club, five innings, the not runs being 8. Next the Highlanders played the Tanmaster Club nine innings, winning the game by 32 runs, the total runs on both sides amounting to 87.—*The Fourth*.—The Fourth of July was right handsomely celebrated in this city on Thursday. The second match of Base Ball between the Pioneer Club of Portland, and the Clackamas Club was played on the grounds of the latter, and although the Clackamas Club were beaten, the result shows that our boys have noble pluck and most excellent bottom. The Declaration of Independence was read by Col W L White, and a basket picnic enjoyed in shady retreats near the grounds. The festivities of the day closed with a public ball at the Court House.—*Look well to Land Titles*.—To all farmers and land proprietors we would say—do not defer getting your Patents or title deeds from the government. Or, if you hold title derived from or through the original locator, or advice be: see the Patent is issued, and properly recorded. Many people, indeed we may say people generally, suppose that a duplicate receipt is a sufficient title. It should be known that the duplicate, as it is generally called, is not evidence even of a legal title from the government until the act of issuing the duplicate receipt is confirmed by the Commissioner of the General Land Office at Washington, the title of the government has not passed, and it is not unfrequent that entries of years standing have been and are being canceled. Hence we can give no better advice to our patrons than to say, save your homes and your family from the liability of trouble, by securing your patents before adverse claims arise. It will prove far cheaper to employ some person familiar with the business to procure the issuance of Patents, than to defend against an adverse claim, even though you succeed in sustaining your title.

OUR COMMISSION AGENTUR.—Capt. J. M. Kohler, late of Oregon, has arrived at New York, established himself in the Commission business and solicits orders from Oregon merchants. See his advertisement under the head of "New To-day." The following is an extract from one of his circulars: "You are well aware that Oregon Merchants dealing in San Francisco are paying a large tribute to that city that ought to be applied to the growth and importance of our own State, and which, by direct shipment to Oregon, could be saved. It may occur that some classes of goods can at times be purchased in San Francisco as reasonable as in New York, but no merchant can rely upon such chances to replenish his stock. What San Francisco can ship around Cape Horn, or across the Isthmus, Oregon can do with equal advantage either by ship direct to the mouth of the Columbia (which will soon be accomplished), or by re-shipment in San Francisco. California is a noble State and can well boast of her independence. We would have her convinced that we have some of the same mettle. Our State and our productions are rated second-best at present in San Francisco. The right sort so to be, especially where there is equal merit. An opportunity is here offered to change the programme, and orders are respectfully solicited. Various manufacturing districts have been visited, and figures and terms obtained, and it is self-evident at a glance that bargains can be had in every department of merchandise that would leave a large margin over purchases in San Francisco, with fresh goods direct from the manufacturers or their respective depots in New York or any of the Eastern marts.

RETURNED.—J. H. Mitchell, Esq., has returned back from Salem and will be in attendance at the present term of court. Mr. M., while absent, has been in attendance at the Marion County Circuit Court, and also delivered twelve lectures on medical jurisprudence to a class of medical students in the Willamette University, of which department he has been a Professor since its organization. Besides all this amount of labor he prepared and delivered a fourth of July oration. Surely Mr. M. is industrious and diligent.

OUNCE TO BE PROSECUTED.—Officer Hudson, while performing his duty faithfully, as he usually does, found it necessary on Saturday last to arrest quite an obstreperous individual, said being a small club himself, the officer called upon school lady, not very far to assist him—but no, not a one jerked tender mercy assistance, until a large and dutiful truck driver, made his appearance, when the peace offender was securely placed aboard the truck and taken to the city jail.

UNITED STATES DISTRICT COURT—DEADY, JUDGE.—In this Court on Saturday, the case of the United States vs. George A. Ladd, H. W. Rappley, the increased bonds to $2,000 was filed.

The United States against George A. Ladd, H. W. Rappley, W. S. Mercer, S. B. Parrish—was arraigned and pleaded not guilty. The case was then continued until the next regular term of Court.

GOVERNOR WOODS has, we understand, been invited to a ramp California. It is quite a compliment to Oregon. But more good is done the people by having an opportunity of purchasing clothing cheap, which can be done at Harman Bros., corner of Front and Morrison streets. Prices: Harrison pants, $5 50; velvet vests, $3; linen dusters, $2 to $2 50; rubber ties, 50 cents.

RECEIVED.—A. P. Miller, fruit and flower dealer, corner of First and Washington streets, sent us a sample of cherries of the Black Eagle and Royal Ann varieties. To say they were excellent is to give but a slight idea of their peculiarly luscious taste and appearance. Mr. M informs us that the sales of these cherries foot up at least 1,500 pounds a day.

AWARDED.—The contract for furnishing ninety cavalry horses to the military of the Department of the Columbia, has been awarded to Joseph Teal, who is to fill the contract at the price of $133 per head.

PRODUCE.—The *Senator* brought down on Saturday last the following freight. 0 half barrels produce, 1 keg ditto 0 boxes ditto, 63 cases lard and bacon, 0 boxes of cherries 5 bales woolens, 16 sacks bacon.

LIVE YANKEE.—As we intimated, this staunch bark took her departure on Saturday in tow of the *U. S. Grant*, which steamer will safely see Capt. Wiggin out on the surging billow beyond the Bar.

AJAX.—The cargo of this steamship has all been discharged, and is to-day filling up the vacancy in her bowels with flour and other produce. She will depart to-morrow evening.

LAPS.—Julius Ortlieb, a merchant of Boise City, having purchased a large stock of general merchandise left for his home this morning on the *Cascades*.

VISIT.—Frank A. Hill, of Oregon City, paid us a visit on Friday. Frank, long may you wave.

THIS EVENING.—The Pioneers play this evening at five o'clock, sharp.

It is fair and honest that Congress and the Oregon people should support Barman Bros. selling clothing at the following prices: Harrison pants $5 50; velvet vests $3, linen dusters $2 to $2 50; rubber ties, 50 cts.

Old Letters.

BY MARY T. CLOUGH

Come they from sinner or from saint,
Traced in bold or in sublimest faint,
Treasure the letters they speak at times
When the heart beat quick in merry chimes
How welcome once it matters not,
With the old friend has forgot
Or whether your memory still is green,
Despite the years that have rolled between,
Treasure them up for they're sacred things,
Poetic bits that sweet mem'ries bring,
Mingled or bitter sweet
Treasure waste paper the something more,
Than the bliss or blight they brought he o or

Treasure them up if the hand is cold,
That traced the lines of the written scroll
If the heart a dull throbbing is over o
And the cold earth covers the marble brow,
Treasure the lines for ne'er again
That hand shall trace with the flying pen
Such lines as these, that will ever be
A bond of love twixt the dead and thee
And oh if the blessed from realms above
Can ever look down on the ones they love
I know they would gaze when the drooping head
Is bent o'er the words of the silent dead

I fain have felt in the silent night,
Their souls drawn near from their homes of light,
And down through the aisles of the echoing air,
Have tinkled the feet of the seraphs fair
Then treasure the letters though tear-drops start,
Though memories wail through the breaking heart,
For the missives that came in days gone by,
Are fraught with a love that will live on high,
When Earth, and Sky, and the waves that roll,
Shall be blotted out like a worthless scroll

—Golden for July

THE INDIAN WAR.

The special correspondent of the St. Louis *Democrat*, gives the following details of the Indian troubles

THE INDIAN MURDERS ON THE PLATTE.

One would suppose that the newspapers nearest to the scene of Indian depredations would be more likely to publish true details of the horrid affairs, but such is not the case. Take, for instance, the press of Omaha. Were all the Indian outrages that have lately been perpetrated in the vicinity of North Platte and the adjacent ranches and settlements of Julesburg and Fort Sedgwick, published in the Omaha papers, it would injure the interests of Omaha greatly. The *Republican* of that hyperborean city, the future Chicago of the West, comes nearest to the truth of any, but now does not enter that office of the infernous, horrible and fiend-like scenes enacted on the Platte route For the purpose of giving an impartial correct account of what transpires in Platte Valley, we determined, after an interview with Gen. Augur, to proceed personally to the seene of hostilities. On our arrival at Bishop's ranch we commenced to hear of the actions of the ubiquitous Indians. The great highway of the gold region was full of emigrants thitherward bound, and well armed with the best and most effective arms; and all on the *qui vive* against any sudden attack of the red skins. Whatever may be said to the contrary, the war on the Platte is carried on with a vigor that betokens the Indians thoroughly aroused. Along the bluffs are Indian videttes watching with admirable patience weak posts and helpless emigrant trains. When the opportune moment arrives, from every small hill and ravine the hawks of the desert swoop down with unrivalled impetuosity, and in a few seconds the post or camp is carried, the tent or ranch is burnt, and the emigrants are murdered. If the present suicidal policy of the Government is carried on, eventually the settlers must succumb to the unequal conflict, to unite in bands to carry on the war after the manner of the Indians, which means to kill, burn, destroy Indian villages, innocent papooses and squaws, scalp the warrior, and mutilate the dead; in fact, follow in the same course as the red men, that their name may be rendered a terror to all Indians. Then, and not till then, may they hope for peace. From conversations with the ranchmen and freighters on the prairie, we are of opinion that the time is not far distant when we may hear of such confederation of whites organized for such purposes. It is a desperate remedy, and yet it seems the only one likely to affect the sanguinary and vindictive savage.

We have also carefully examined each post and garrison at present on the plains, and the following is the correct estimate of troops:

At Fort Kearney, Nebraska, there are twelve soldiers and a band of musicians under the command of a lieutenant. The fort is situated 490 miles east of Denver, within half a mile of the Platte river. It is a forlorn looking place, for its glory and prestige have departed with the troops that were lately there. It has has become a habitation for owls and prairie dogs. The lovely parade ground that once re-echoed with the tread of our blue uniformed soldiers is now silent. Grass grows on the walks and entangles the wheels of the howitzers. What a striking contrast! Its small garrison is at the present time engaged in building a formidable stockade, for the sake of being employed.

The next post is Fort McPherson, so named after the immortal Brigadier General McPherson, who fell on one of the crimson battle-fields of the South loudly deplored by his loyal country. The garrison at Fort McPherson, which is strongly fort imposed of Company B, Second Cav alry Third Artillery, and a small detachment of infantry. The post is commanded by Lieutenant and is situated about 350 miles east of Denver and within one mile of the Platte river, called after Major-Gen. Sedgwick, a garrison composed of companies A, F, G, B, of the Fourth Infantry, two companies of the Thirtieth Infantry, one company of cavalry and a small squad of artillerymen General Hunt, who is camped on the north side of the South Platte, commands the post. It is fortified in an admirable manner, and would withstand any force the hostile tribes could bring to bear against it. The fort is about 100 miles west of Fort McPherson, and is built on a commanding eminence.

About four miles to the eastward stands Julesburg, made memorable from the massacre of its citizens in the early part of 1865. A very enterprising little burg, it has risen, Phœnix-like, from its ashes, has a better location than formerly, and its present inhabitants living in these troublesome times are well armed and ready for any emergency. The tale of the bloody sacking of the former town is still fresh, and is related to the passing traveler.

The above mentioned posts contain all the troops between Omaha and Denver Situated 100 miles apart, it is easy for the wily Indian to commit any depredation and depart to his hiding place unpunished The company of cavalry commanded by Captain Mix is always on the move. From hill to hill, ravine to ravine, over prairie and over creeks they chase the red man, but all to no purpose. They have not succeeded in bringing in one pris oner yet. A comical tale is told of this brave Captain by a citizen of Fort Sedgwick, which goes far to prove how these man pursuits are conducted "News is brought to the headquarters of General Hunt of the killing of three herders in Morgan Canon, four miles from Julesburg. Instantly Captain Mix is dispatched after the redskins, and away they scour many miles of country until they begin to feel a "leetle" tired and hungry To their dismay they find that they have forgotten their rations, and, of course, are obliged to return in haste. On their arrival in camp they are accosted by anxious inquiries, 'What news of the Indians?' Did you see any?' The answer is returned by the crest fallen Captain, 'Nary a one! I'm darned if I believe there are any Indians in the country' In the meantime while the captain was away, another report came in informing the Gen of murder of the two more men 9 miles above Julesburg, on the North side of the Platte. This time the trooper takes sufficient rations along to last a day or two. He starts again in the direction where the affair occurred; but towards night he is seen coming over the bluffs to camp. Again he is surrounded by eager questioners, 'What news? What success? To which he answers 'Nary an Indian!'" If we are rightly informed, such is the manner and such the mode of regular cavalry fighting Indians. What can the people hope from such a course of action? Daily the Indians pursue their course of rapine, arson and murder Are the plains to be left to the Indians? Are our countrymen to be murdered and scalped without retaliating? Are delicate women to be carried by the remorseless savage to his wigwam, to be sold to vile bondage and for other purposes for which we have no name? The people of the West pause with anxious hearts for an answer

These things are done, and on our trip across the plains we saw enough to satisfy us that unless the Government pursues prompter measures, the people will take the law in their own hands But now to details Between Bishop's Ranche and Alkali Station there are three fresh graves visible. These were filled by persons killed about three or four weeks ago Three are three churches burnt, and the debris remain tell-tale evidence of the mode of Indian warfare.

THE CORRESPONDENT PURSUED.

While riding from Alkali to Julesburg on the stage taking notes, we happened to turn our eyes towards the bluffs, when we saw a black object resembling a head. Calling the attention of the stage driver to the fact, he declared on both ,twas an "Injun" The driver's rifle was placed in our hands with an injunction to use it should they make any warlike demonstrations We also warned the inside passengers of what we saw Thus unceremoniously awakened by the presence of the Indians they got their rifles ready, and soon four bright muzzles were seen protruding from the coach. The Indian saw that he was discovered, and advanced more clearly to view At same moment we saw five others; all were mounted and after an apparent consultation with each other, they commenced to gallop rapidly in a zig-zag manner along the ridge of the bluffs After riding and manœuvering thus, they descended a ravine and were soon out of sight As they exhibited no signs of hostilities, we did not think it necessary to inform the post commander at Sedgwick, and create needless alarm The driver's opinion was that the group of Indians we had seen thought it rather a dangerous task to undertake the capture of a coach, as it had been proved to them repeatedly that more hard blows could be got than plunder

A DESPERATE SCALPED

When near Julesburg, at Old California crossing, we saw an ambulance standing at the door We left the stage and proceeded to inquire the news. We were told that a deserter had been shot by Indians and scalped This soldier had been seen the day before skulking behind the bluffs, by one I T Nelen, formerly of the Herndon House, Omaha, but now a resident of Julesberg It seems that the soldier had left, with the intention of deserting, as he was tired of a soldier's life He had traveled 21 miles due east from Sedgwick when he was discovered by Indians With an exultant yell they pounced on him and transfixed him with an arrow He fell at once, and as a matter of course was scalped We saw him previous to his burial, and saw for the first time a scalped person

It may be interesting to your thousands of readers, we give you a slight sketch of the mode and manner of scalping. Directly over the bump of firmness, at least the region designated by learned phrenologists, a circular piece of skin that covers the cranium of about the size of a double eagle is cut and snatched off Sometimes, when in a great hurry, the savages cut a larger piece, and the remainder of the skin falls off almost covering the eyes It is a horrible sight, and, the operation is one, we earnestly hope, will never be performed on our worthy self While writing, we assure you that our scalp is intact, but how long it will remain so, we cannot as yet inform you.

From Julesburg to Valley Station is about 50 miles. This is the most dangerous part of the route We passed several ranches with their outbuildings burnt to the ground. The dark walls of the adobes prove that fierce fires raged there Each ranch has its neighborhood from 3 to 5 graves, indisputable evidence of the vindictiveness of the red devils. Between Valley Station and Old Godfrey's ranch, the morning that we passed by, about twenty-five Indians had driven the herders of some 300 cattle across the river They were instantly pursued by a detachment of citizens and soldiers, who at one time came within an ace of capturing the whole party: Nothing could exceed the energy that animated the citizens, who had been for months sufferers by their operations.

DIVISIONS AMONG THE SAINTS.—The Salt Lake *Vedette* of June 22d intimates that all is not harmonious in the Mormon Isreal, and remarks as follows:

The followers of Joe Smith are not more successful in keeping up their ranks and keeping divisions than other folks Mormonism has assumed a bifurcated appearance of late years, and the wrangle going on between the two divisions promises not to lose any of its interest to the outside world for some time to come. As we have taken no stock in the differences between them—in fact, we have no invitation to participate—we will state impartially, as near as we can, the difference between the two factions. Young Joe Smith, the son of the Mormon Prophet, is the acknowledged head of the large body of Mormons in the Western States who accept the "Book of Mormon" and the prophecies of Joe Smith; and he denounces polygamy and blood atonement as innovations on the faith of the Latter day Saints, and styles such practices grievous crimes against the well being of society. Brigham Young is the acknowledged head of all the Latter day Saints in Utah who accept the "Book of Mormon," the prophecies of Joe Smith, believe in polygamy, blood atonement and Brigham's special revelations. Joseph Smith, Jr., is determined to be recognized and acknowledged as the head of the Mormon Church, and Brigham is determined that he won't. Some of the Smith family came out here last summer to preach the "pure quill," but they didn't run away with the people. They met with poor success. Brigham aired all that was left of the Smith family one Sunday afternoon in the Tabernacle, including the wife of Joe Smith, the Prophet, "who," he said, after painting out all her other good qualities, was the d—dest liar he ever knew." Brigham is at home in Utah. So, now, the Smiths are on their own dunghill in Iowa, and flop their wings and stretch their necks, crow real loud and have unanimously received Brigham Young out of office and young Joe in. Some of the faithful think the prophetic mantle descended in a lineal manner to young Joe. Brigham thinks nothing of the kind—in fact, he knows better. Still, for the sake of harmony and a good understanding all around, he is willing to accept the principle of "lineal descent," and apply the rule to his own family, from and after this date. In fact it is rumored that an application of this principle has already been made; and that Brigham, Jr, has been chosen "head" of the Church, and without doubt is the coming man. Joe Smith has about 40,000 souls under his wings in the Western States, ready to back up his claims and aspirations. Young has double, treble perhaps, that number to back them down again. Some of the defective have left and are leaving Utah to enroll themselves under Joe Smith's banner. Already two Josephite preachers are holding forth over at Austin, and may find their way into the Utah settlements this summer. This falling off will be more than made up for in the fall, when the Scandinavian immigration pours in here. On the whole, we are decidedly of the opinion that Brigham Young has much the advantage of the Smith family in both power and position. The only curious feature about the whole matter is to see Saints—for they all style themselves such—divided against each other, and one wing charging that the tenets of the other is a "swindle" and the head of it "a wicked impostor," while the other wing looks upon its opponents as no better than apostates.

G. F. TRAIN BUILDING A HOTEL.—An Omaha, Nebraska paper tells how George Francis Train commenced building a hotel at that place:

While a large number of gentlemen were dining at the Herndon, the gale blew out a pane of glass The gush of air was fearful to those afraid of the draft. What was to be done? No hat was big enough—no time to put in a pane of glass—no pillow at hand—the gale too fierce to tack up the curtain, and the guests all the while taking cold. Train was equal to it. He gave one of Thad. Stevens' new citizens ten cents a minute to stand with his back against the breeze. The effect was electric. The wind was stopped, the guests were happy, the negro delighted But the success was not appreciated by the steward, he objected, said the waiter was wanted, damned him. And Train, observing that his genius was not appreciated, got mad—said he would build a new hotel in sixty days, bought the land that night, dug the cellar next morning, and fifty carpenters were at work the day following This is the history of the Grand Hotel of the Pacific, and illustrates the proverb that it is an ill wind that blows nobody any good.

DANA'S NEW PAPER.—It is understood that the issue of Mr Dana's new evening paper is postponed until September It is probably found to be a more difficult matter to start a new daily upon an adequate basis than was supposed We imagine it will also be found more difficult to sustain it The day has gone by when journals succeeded as the mere organs of any political party or as the advocates and champions of any distinct set of doctrines They require a broader basis—a larger and more general audience, than any party or any system can give them. Mere party organs have come to be regarded as more political *tracts*—missionary undertakings, addressing mainly those who already agree with them, and not likely to reach many others The zeal of the parties by whom such enterprises are usually set on foot, is very fierce and hot at the outset—but it cools with time and depletion Carl Schurz, we see, has failed to make of the Detroit *Post* what its enthusiastic projectors intended it to be, and has taken the editorial charge of a German paper in St. Louis.—*N Y Times*

FIRST APPOINTMENT UNDER THE TENURE OF OFFICE BILL.—The President has appointed J. C Walton to be Assistant Treasurer at New Orleans, in place of Mr W R Whittaker, who had been suspended in consequence of his implication in the recent defalcations in the Crescent City This is the first removal made by the President under the Tenure Office Act, which provided that upon evidence of fraud, malfeasance, inefficiency, or other sufficient cause, the President may suspend an officer, and must report such suspension and the reasons therefore within twenty days after the commencement of the next session of the Senate

POKER.—A rare game of poker, which is not set down in Hoyle, was recently played in a public house in Street A fellow attacked his wife with a poker, and was arrested by a gentleman attracted by her screams As the gentleman *passed*, the woman *saw* him and *called*.

There is a bill before the Connecticut Legislature providing that a fine of $20 be imposed on any one who purchases a glass of lager from a person not authorized to sell it This will make it dangerous for any but the sharpest Connecticut lawyer to indulge, for every casual or lawful drinker will be obliged before drinking, to investigate the legal authority of the vendor If there is any flaw in the title to sell, he may find himself suddenly under arrest, before he has had a chance to dispose of his lager. We should think that Connecticut might be sharp enough to pass a law putting directly in the control of the police authorities the responsibility of preventing the unauthorized sale of all kinds of liquor, and arresting all illegitimate liquor dealers. Such a law as now proposed, instead of punishing the proper and culpable parties, would act on stray wayfarers and other helpless customers.

THE ONLY ALTERNATIVE.—There can be restoration, conciliation, friendship, and prosperity for all, if the States lately in rebellion rebuild their institutions upon principles of justice, but if they dwell upon the past, revive and strengthen the hatred that were engendered by the contests about slavery,—if they deny land, education, or equality of rights in any particular to any class of their citizens—then, in some degree, the malign influences of the past and present will be transmitted to the future

IMPROVEMENT IN WEAVING.—The sewing machine is likely to have a rival in an invention recently perfected by which wearing apparel of all kinds, shirts, pantaloons, vests, ladies' mantles, jackets, coats, etc., are both woven and sewed at the same time The sewing of the seams is strong or even than hand sewing and perfectly smooth and even, and the articles are woven and sewed of any pattern, of wool, silk, cotton, or any other material.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES
Dr. Gibbon's Dispensary,

616 KEARNEY STREET,
NEAR COMMERCIAL,
San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, old Skin Diseases (even of many standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends, attend to those who are suffering with any of these horrible life destroying maladies—ere they sink into a premature and untimely grave to be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who can restore to health the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from European and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self abuse This solitary vice, or secret sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with alarming certainty, the following train of mortal symptoms, unless counteracted by medicine used in time: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots immediately about the head, weakness of the limbs, confused vision, clouded intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath cough, consumption, night sweats monomania and frequent insanity If relief be not obtained should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these horrible maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES

The various complicated and distressing diseases incident to females, treated with eminent success Such as Suppressions, Irregularities, Whites, Falling of the Womb Stenosis, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind Have no delicacy in calling, no difficulty in stating your troubles may be. The afflicted are cordially invited to call, and satisfy themselves

Persons calling at Dr Gibbon's office or sending for packages of medicine, may rely upon his assurances of confidential secrecy with implicit faith and expect no more than to be charged with a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co

Address DR J. F GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.
